You'll be able to:

Learn the essential concepts of drawing in SketchUp.

Learn to use SketchUp's user interface and modeling tools.

Create realistic sites using topography and sandbox tools.

Produce useful models using real world materials and environments.

Create photo realistic renderings and animations.

The SketchUp for Building Professionals Seminar will demonstrate the majority of SketchUp's tools while effectively constructing a model of a building placed in Google Earth, with 3D topography and presented in LayOut, a significant presentation program included with SketchUp Pro.
**Faculty**

Christopher A. Krupp, AIA Architect – Krupp Associates Architects, PC

Mr. Krupp is a practicing architect and president of his own firm in the Chicago, Illinois, and Asheville, North Carolina, areas. His focus is on custom residential, small commercial and tenant build-out projects. He has been a licensed architect for over 30 years and a user of SketchUp Pro since Version 2.

As the principal architect and designer at his firm, Mr. Krupp utilizes free hand sketching, AutoCad and SketchUp throughout the design and construction drawing phases of his work. Integrating SketchUp into the daily workflow of his office plays an increasingly important role in the development of new designs. As SketchUp has the ability to import CAD files and export CAD-ready files to AutoCad, designs can be carried out virtually side by side with more and more importance being placed on SketchUp in the development of a project.

Utilizing SketchUp add-on and plug-in programs, including LayOut (a presentation program accompanying SketchUp Pro), Mr. Krupp produces highly detailed SketchUp models, photo-realistic renderings, fully-rendered walk through animations, public hearing presentations and even basic construction drawings for his clients.

In addition to his work at Krupp Associates, Mr. Krupp is an adjunct professor at AB Tech Community College in Asheville, North Carolina, where he has been teaching beginner and intermediate level SketchUp classes for over five years to students from all walks of life, including architects, woodworkers, landscape architects and even a jewelry designer. He has written extensive user manuals for both levels.

Mr. Krupp is also the principal of the SketchUp Academy at www.sketchupacademy.com, which provides online SketchUp training videos, examples of SketchUp projects, and an All Things SketchUp blog.

He received a Bachelor of Arts degree (summa cum laude) in Architecture through both the University of Cincinnati and Ohio University in 1975 and has received numerous awards for his designs, both residential and commercial.

**Doubletree Hotel New Orleans**

300 Canal Street

New Orleans, LA 70130

(504) 581-1300

**Tuition**

$265 for individual registration

$245 for three or more simultaneous registrations. Each registration includes a reference manual written by Christopher Krupp.

**Four Easy Ways to Register Today!**

Register online at www.halfmoonseminars.org, mail in registration form to HalfMoon Education Inc., PO Box 278 Altoona, WI 54720-0278, fax the form to (715) 835-6066, or call a customer service representative at (715) 835-5800.

Cancellations: Cancel at least 48 hours before the start of the seminar, and receive a full tuition refund, minus a $39 service charge for each registrant. Cancellations within 48 hours will not receive a credit toward another seminar. You may also send another person to take your place.

**Continuing Education Credit Information**

This seminar is open the public and offers up to 7.0 continuing education hours to architects and 7.0 PDHs to professionals in most states, including Alabama engineers. Educators and courses are not subject to preapproval in Alabama.

This seminar is registered with the American Institute of Architects for 7.0 Learning Units (AIA NO. J885). The AIA does not deem the subject matter of this course as HSW. Therefore, Alabama architects cannot earn continuing education credit for this activity.

This program also qualifies for Florida architects and 4.0 Area of Practice hours for Florida engineers. HalfMoon Education is a Florida-approved continuing education sponsor for architects (Provider No. 001388) and engineers (Provider No. 004847). HalfMoon Education is deemed an approved continuing education sponsor for architects in New York. HalfMoon Education is an approved continuing education sponsor for engineers in Indiana, Louisiana, Maryland, New Jersey, New York (RYSED No. 35), North Carolina, and North Dakota.

This program offers a continuing education opportunity to Alabama construction contractors, but it has not been submitted to any state contractor licensing entity for course approval.

Attendance will be monitored, and attendance certificates will be available after the seminar for most individuals who complete the entire event. Attendance certificates not available at the seminar will be mailed to participants within fifteen business days.

**Testimonials**

Here’s what attendees have to say about Christopher Krupp’s SketchUp Seminars!

“Mr. Krupp is an exceptionally well-informed and experienced instructor.” – Mechanical Engineer

“(Mr. Krupp) speaks well. Knows his material very well.” – Structural Engineer

“(Mr. Krupp) was very accommodating for questions. Very organized and informative.” – Architect
