Faculty

Gregory H. Nail, PhD, PE Associate Professor, University of Tennessee at Martin

Dr. Nail is an associate professor in the Engineering Department at the University of Tennessee at Martin where he teaches a variety of courses including fluid mechanics, hydraulics and hydrology, and hydraulic and hydrologic modeling. He holds a professional engineer's license based on having passed both the civil and mechanical discipline-specific exams. Prior to coming to UT-Martin in 2002 he worked as a research hydraulic engineer for the United States Army Corp of Engineers for 11 years. He is a former member of the Executive Committee of the Tennessee American Water Resources Association, and he has lectured on various HEC-RAS modeling topics at the Annual Tennessee Water Resources Symposium and at other venues. Dr. Nail earned his B.M.E. degree from Auburn University and his M.S. and Ph.D. degrees from Texas A&M University.

Continuing Education Credit Information

This seminar is open to the public and offers a 6.5 continuing education opportunity to Washington professional engineers (not required for license renewal), which will qualify for 6.5 PDHs in other states. This course also offers 6.5 HSW PDHs to Washington landscape architects. Educators and courses are not subject to preapproval in Washington.

This seminar is approved by Landscape Architecture Continuing Education System for 6.5 HSW PDHs. Only full attendance can be reported to LA/CES.

HalfMoon Education is an approved continuing education sponsor for engineers in Florida, Indiana, Maryland, New Jersey (Approval No. 24GP00000700), North Carolina, and North Dakota.

The Association of State Floodplain Managers has approved this course for 6.5 CECs.

This course offers a non-credit continuing education opportunity to geologists. It has not been approved by any state contractor board with mandatory continuing education.

Attendance will be monitored, and attendance certificates will be available after the seminar for most individuals who complete the entire event. Attendance certificates not available at the seminar will be mailed to participants within fifteen business days.

Attendees wishing for hands-on HEC-RAS experience can do so by participating in the two live demonstrations during the afternoon session. This is entirely optional, but those wishing to do so should download and install HEC-RAS 5.0.3 on your laptop before arriving at the seminar (<http://www.hec.usace.army.mil/software/hec-ras/downloads.aspx>). All HEC-RAS files used by the presenter during the live demonstrations will be distributed to attendees on a DVD, prior to the start of the seminar. No internet connection or licensing is required to run HEC-RAS, once it is installed. Participation in the live HEC-RAS demonstrations is the choice of the attendees, and is not required.
