- Becoming a vocal and visible player in designing future communities

**Making a Livable Lifetime a Dream Come True**
- Remodeling vs. relocating to best suit your client needs - assess, analyze, actualize
- Including universal design from A-Z: for design innovation that appeals
- Choosing UD fabrication, application, installation and customization for cost savings
  - Activity: Space analysis

**Learning Objectives**

You’ll be able to:
- **Review** case studies and success stories of aging in place implementation in a variety of markets.
- **Examine** society demographics and changing consumer behavior, and address life expectancy in your design process.
- **Understand** how to create community spaces to enhance transportation and recreation.
- **Discover** universal design to create residential units that provide ultimate livability for all ages.
- **Review** what you have learned about aging in place through interactive class activities.

**Continuing Education Credits**

**Professional Engineers**
- 6.0 PDHs

**Architects**
- 6.0 HSW CEHS
- 6.0 AIA LU|HSW

**Louisiana Interior Designers**
- 6.0 LLSBID CE Units

**Contractors**
- Non-Credit Continuing Ed.
Rebecca Stahr  
CEO, LifeSpring Environs, Inc.

Ms. Stahr has championed and advanced livability for all ages nationally as an advocate, entrepreneur, designer, and business owner. As CEO of LifeSpring Environs, Inc. for over 20 years her work supported missions of government, universities, health care, religious institutions and private and public entities. With several awards for advocacy and pioneering livable communities, Ms. Stahr has promoted livability for all ages in multiple capacities, including as spokesperson and consultant for AARP, the National Association of Homebuilders, the National Endowment for the Arts, the Kitchen and Bath Industry Show, The Home Depot, Rebuilding Together, Whirlpool, Moen, Ferguson, LSU Health Sciences and various organizations with a desire to better respond to the needs of the growing population of seniors. She co-founded a non-profit that highlighted “hands on” projects for people to understand real life applications that support abilities of all. As a mentor and consultant today, Ms. Stahr strives to impact quality of life through strategic resource development and implementation to complement societal changes.

Additional Learning

Webinar Series

Introduction to Hydro Energy Logic Modeling Software (HELP-FL)  
• Introduction to Hydro Energy Logic Program Modeling Software (HELP-FL), Part I  
• Introduction to Hydro Energy Logic Program Modeling Software (HELP-FL), Part II  

Small Wind Energy Systems  
• Small Wind Energy System Components  
• Small Wind Energy Siting and Sizing

Deep Foundations and Excavations  
• Earth Excavations  
• Deep Foundations

Continuing Education Credit Information

This seminar is open to the public and offers 6.0 PDHs to professional engineers and 6.0 HSW continuing education hours to architects in all states, except Florida architects. Educators and courses are not subject to preapproval in Louisiana.

The American Institute of Architects Continuing Education System has approved this event for 6.0 LU|HSW (Sponsor No. J885). The Louisiana State Board of Architectural Examiners accepts programs approved by the AIA/CEUs. Only full attendance can be reported to the AIA/CEUs. Visit www.halfmoonseminars.org for complete AIA/CEU information on this course listing.

HalfMoon Education is an approved continuing education sponsor for engineers in Florida, Indiana (License No. CE21700105), Maryland, New Jersey (Approval No. 24PG00000700), North Carolina, and North Dakota. HalfMoon Education is deemed an approved continuing education sponsor for engineers in all states, except Florida architects.

The Louisiana State Board of Examiners of Interior Designers has approved this course for 6.0 continuing education units.

This course offers a non-credit continuing education opportunity for construction contractors, but it is not approved in any state with a contractor continuing education requirement.

Attendance will be monitored, and attendance certificates will be available after the seminar for most individuals who complete the entire event. Attendance certificates not available at the seminar will be mailed to participants within fifteen business days.
