
Rochester, NY - Friday, April 24, 2020

You’ll be able to:

Comply with the International Energy Conservation Code’s (IECC’s) provisions for residential building envelopes, including requirements for foundations, insulation, fenestration, and air leakage and testing.

Comply with the IECC’s provisions for residential HVAC systems, including requirements for control systems, ductwork insulation, service hot water and mechanical ventilation.

Meet the requirements of IECC’s residential provisions for electrical power systems and lighting systems.

Apply IECC residential provisions to existing buildings, including requirements for building additions, alterations and repairs.

Learning Objectives
Wendy Talarico, LEED AP
Ms. Talarico consults with architects and engineers throughout the Northeast to provide continuing education on a range of subjects from codes to building science. She is an instructor for Urban Green/New York State Energy Research and Development Authority’s “Conquering the Code,” an 8-hour energy code class in New York State. Ms. Talarico was a member of the engineering outreach team for the Brick Industry Association, and she is an award-winning journalist with more than 25 years of experience as a writer and editor for such publications as Architectural Record and This Old House.
