Agenda

Returning Native Species and Natural Habitats
D. Warners, D. Geelhoed

- Ecology of pre-development landscapes
- Counting the costs of development: what has been lost?
- Making amends - benefits of promoting native species
- Understanding restoration ecology and reconciliation ecology
- Convincing clients and navigating the push-back/embrace drama
- Small scale and large scale restoration projects

Site Evaluation and Project Design
B. Moyle, T. Aschenbach
- Setting restoration goals
- Project objectives
- Site assessment
- Removing sources of disturbance
- Restoring ecological processes
- Restoring soil and water
- Restoring vegetation
- Monitoring and maintenance

Environmental Regulatory and Permitting Issues
S. Sutherland
- Wetlands permitting
- Michigan Part 201 Cleanup Standards
- PFAS developments

Riparian Restoration and Enhancement Along an Urban Riverfront
H. Bobich
- Invasive species removal
- Native seeding and tree planting
- Restoring habitat for both wildlife and people
- Maintenance and monitoring

Restoration Project Case Studies
S. Duke

Learning Objectives

- **Discuss** restoration ecology and reconciliation ecology for small-and large-scale restoration projects.
- **Evaluate** strategies for restoring ecological processes, vegetation, and soil and water.
- **Understand** Michigan Part 201 Cleanup Standards and new developments regarding PFAS.
- **Recognize** the importance of restoring riparian habitat for both wildlife and people.
- **Learn** ecological restoration techniques through case studies.

Enjoy HalfMoon Education's flexible scheduling and different program delivery options! In the event of health concerns, program may be offered as a live webinar or be rescheduled, and will also be available as an on-demand course.
Suzanne P. Sutherland is an associate at Barnes & Thornburg LLP, where she is a member of the firm’s Real Estate and Environmental Law Practice Group. Ms. Sutherland focuses her practice in the areas of development and construction matters and the acquisition, leasing, sale, and financing of real property. She also counsels clients on environmental compliance and enforcement (including air quality and chemical regulation); remediation, corrective action and voluntary clean-up; environmental due diligence for real estate transactions; environmental permitting and enforcement of “green” laws; compliance with environmental transactional due diligence and wetlands permits. In addition to construction matters, she has experience counseling a range of clients on business planning, contract review, negotiation and preparation.
